

1 **WHAT IS CLAIMED IS:**

2 1. A barbecue grill comprising:

3 a stand with a top;

4 a body attached to the top of the stand; and

5 a grid adjustably mounted on the body with an adjusting device,

6 wherein, the adjusting device comprises

7 a shaft moveably extending through the body and rotatably

8 connected to the grid; and

9 a positioning device mounted between the body and the grid and

10 connected to the shaft to hold the shaft at a desired position.

11 2. The barbecue grill as claimed in claim 1, wherein the positioning

12 device comprises

13 a tubular member formed on the body and having a through hole

14 extending through the tubular member for the shaft extending through the

15 through hole; and

16 a positioning screw screwed into the tubular member and having a free

17 end abutting against the shaft to hold the shaft in place.

18 3. The barbecue grill as claimed in claim 2, wherein

19 a tube is securely mounted on the grip and has a bottom opening;

20 the shaft has a top extending into the bottom opening of the tube and an

21 annular groove defined near the top; and

22 a holding screw screwed into the tube and has a free end extending into

23 the groove in the shaft to rotatably hold the shaft in the tube.

24 4. The barbecue grill as claimed in claim 3 further comprising a handle

1 mounted on the tube.

2 5. The barbecue grill as claimed in claim 1, wherein
3 a tube is securely mounted on the grip and has a bottom opening;
4 the shaft has a top extending into the bottom opening of the tube and an
5 annular groove defined near the top; and
6 a holding screw screwed into the tube and has a free end extending into
7 the groove in the shaft to rotatably hold the shaft in the tube.

8 6. The barbecue grill as claimed in claim 5 further comprising a handle
9 mounted on the tube.
